

ATB Laser Optical Comms Standards and Patent Review

Prepared by: Spear Enterprise LLC & MECSAI

Date: October 16, 2025

This report presents a comprehensive strategic review of NASA's Optical Communications Blue Books, Model Context Protocol integration opportunities, recent patent filings related to optical communication, and strategic implications for the ATB. Full content includes technical analyses, standards tracking, MCP system architecture, and forward-looking compliance actions for the SDC & COMMS program.
